OLEDO, June 8.—Mrs. Gordon Mather, Toledo society leader, whose husband is vice president of the H. H. Dodge Engineering Company, is in a critical condition at home here today, the result of a second stone being thrown through a window of her home this morning, while she was retaining a number of friends. One stone was thrown. One a porch swing and fell with a crash, doing nothing and returned to the house. Ten minutes later the guests were seated at the table. A second stone came crashing through the window, striking Mather on the head, knocking her unconscious.

NEWLY ARRIVED
BRIDE WEDS AT
COURT HOUSE

wedding took place in the city commonsense office at today and it was witnessed by many officials and employees. The bride was Patrick O'Lynn, who was born on St. Patrick's day, hence the name. His bride was Mary Glass, who was born at Lorain yesterday, direct to the Emerald Isle. She and her groom were married at the court house at 10 o'clock. The ceremony was performed by the Rev. J. J. O'Connell, who is an employee of the American Shipbuilding Co. and has a eulogy ready for his bride.

COLUMBUS, June 8.—Arraignment in federal court here today by Judge J. J. O'Connell against 10 men against whom indictments were returned by the federal grand jury last week, included: John A. Blomont and Jim Curry, Cleveland, pled not guilty to violating the Harrison anti narcotic act and are held for trial under \$10 each; Frank Biggio, Earl Atwell, John Pender and John Biggio, St. Paul, Minn., pled not guilty to conspiracy to violate the federal prohibition act, and are held under \$10 each; Frank Biggio, Earl Atwell, John Pender and John Biggio, St. Paul, Minn., pled not guilty to conspiracy to violate the federal prohibition act, and are held under \$10 each; Frank Biggio, Earl Atwell, John Pender and John Biggio, St. Paul, Minn., pled not guilty to conspiracy to violate the federal prohibition act, and are held under \$10 each.

TRAVELERS IN MEET
OLEDO, June 8.—Nearly a hundred delegates and visitors were present when the thirty-fourth annual convention of the grand union of Ohio Order of United American Travelers of America, met here today.

FEDERAL DRY DIRECTOR OF NEW YORK
FACES STIFF TASK WITHOUT STATE AID

Palmer Canfield, federal prohibition director for New York, about to go bootlegger hunting by airplane.

Now that New York state has withdrawn its aid in hunting rum runners by the repeal of the Mullin-Gage act, Palmer Canfield, federal prohibition director for the state of New York, faces the task of plugging the rum leaks along the Canadian border, from the Atlantic and other sources with but a handful of federal agents. This may make necessary for Canfield to invoke the aid of airplanes.

HEAR BRIGANDS
WILL RELEASE
CAPTIVES

SHANGHAI, June 8.—An unverified report reached here tonight that an agreement has been signed between the Pato-Zuku bandits and negotiators providing for the release of all prisoners still held by the bandits, including several Americans.

UNKNOWN MAN
TAKES HIS LIFE
AT BROWNHelm

A man supposed to be R. Smith, residence unknown, was killed at Brownhelm Station last night, and Coroner Perry is of the opinion that it was a case of suicide. The man had been hanging around the station for several days and had been seen to flag a passenger train, but lost his nerve and backed away as it approached. Some time later a local freight came along and when it passed his mangled remains were found. The body was taken to Vermilion, where Coroner Perry and Sheriff Underhill viewed it, and Detective Zarnke took a photograph to aid in possible identification. On his arm was "R. S." and three stars, tattooed. In his pocket was a paper bearing the name R. Smith. He spoke of having been in a Cincinnati hospital, and an effort will be made to identify him.

Many Motorists
Fined Illegally

DAYTON, June 8.—Fines and costs totaling \$6,318.60 on charges of violating the speed laws were collected illegally by S. C. Bechtolt, justice of the peace at Brandon, on the Dayton-Springfield Pike a few miles out of Dayton. State Examiner J. S. Clifton held yesterday in a report filed with State Auditor Joseph T. Tracy.

Hold Italian
In Assault Case

MARION, O., June 8.—Mrs. Charles E. Sellers, mother of the woman held in Columbus pending police investigation of her story of an attack following which she was charged with a second violation of the Mann white slave act, insisted that her daughter is married to Louis Sela an Italian tailor, alleged assailant. In support of her contention she gave out a letter, which her daughter received here yesterday from Sela, who addressed her as "Dear wife" and closed with "I remain your husband, Louis Sela."

CLAIMS FIANCE
ATTEMPTED TO
MURDER HER

COLUMBUS, June 8.—After leaping from a window on the second floor of a house in Cumberland avenue here shortly after midnight, to escape threatened death at the hands, she charged, of Louis Salla, whom, she said, she came here to marry, Miss Florence Sellers, 29, Marion, is being held at the city prison for investigation while the police are seeking Salla.

Miss Sellers sustained a severe cut on her right arm when she broke the glass in a window of the house and jumped out after her alleged husband-to-be, she declared, choked her and turned on the gas after threatening to kill her. According to Miss Sellers, she left Marion Thursday afternoon, having arranged to meet Salla in North Columbus. Owing to the changed route of the F. C. D. and M., she missed him, and rode on into the interurban station downtown.

Later, she said, through friends, she met Salla, and in the evening he took her for an automobile ride, stopping at the Cumberland avenue house.

Release Two
Murder Suspects

KANSAS CITY, Mo., June 8.—Ralph Gillespie, of Marion, Ohio, and David De Weerd, who have been held "for investigation" in connection with the death of Guy C. Moore, prominent grain dealer whose severed body was found early Sunday morning on the tracks of Chicago, Milwaukee and St. Paul Railway, near here, were released today by the police.

INVENTOR OF
MOVIE CAMERA
ENDS LABORS

Was Result of Bet On Whether or Not Horse Ever Has All Feet Off Ground; Never Made a Cent Out of Achievement

NEW YORK, June 8.—The "grand daddy of movies" today put on his slippers and hunted out the easy chair in his Long Island home—John D. Isaacs, inventor, has retired.

Isaacs, forty-five years ago, designed the counterpart of what today is the motion picture camera.

His retirement finds him in the position of never having made a dollar from the brain child which has grown to America's fourth industry, bringing its fame to thousands, and its millions to others.

Wager of \$25,000
"In the days when New York was young—way back in '78"—Senator Stanford and James W. Keene entered into a \$25,000 wager as to whether a trotting horse, at one period of its stride, had all four feet off the ground."

Isaacs, at his country home in Forest Hills, said today.

Broadwayites of another year recall the preparation made to decide the historic bet. Cameras were set up in a row to snap the trotter as it passed. The scheme failed. Then Senator Stanford, a friend of Isaacs, called in the inventor.

But it was not until 1888—ten years later—that a simple electromagnetic release was perfected and the horse photographed with all four feet off the ground. Senator Stanford won his bet.

"The motion picture to me is the most enjoyable form of recreation," Isaacs said today.

Of its scandals; its problems; its future development, Isaacs professes ignorance.

"I love the motion picture for its entertainment, nothing more," the grandfather of the industry said.

Friends tell of Isaacs' deep interest in the pictures. "The movies are restful in their silence," these friends quote the inventor.

They tell how, while engaged in the solving of great engineering problems, Isaacs having carried to completion the majority of the undertakings of the Southern Pacific Railroad during the last quarter century—Isaacs would take time off to "rest up" at the movies.

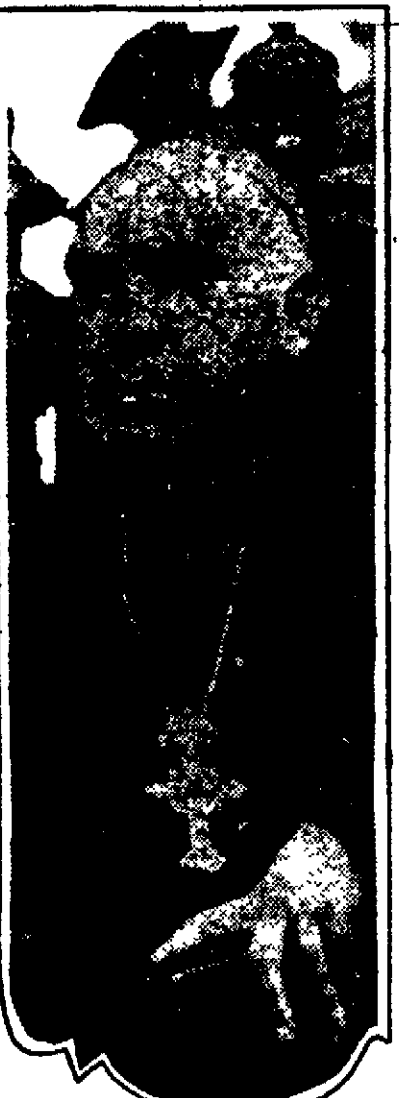

Today 300 of the nation's leading motion picture authors, actors and producers are discussing the future of the screen drama in conference here. Isaacs—the "grandfather" of the industry which has brought fame and fortune to this group—contented himself in his retirement with the hope of "more good pictures,"—his only return from his original invention.

ASKS \$5,000.00
AUTO DAMAGE

A \$5,000 personal damage suit was filed in court this morning by May Thomas against the Gilman Commission Co. of Cleveland. She states that on April 27th she was riding in an automobile with her husband. A truck belonging to the defendant was stalled on the road by Bay Village and was left partially protruding in the highway. Her machine struck the truck which had no rear lights on it and she was thrown through the windshield. She sustained a severe cut on the nose, and injured her left leg and was badly bruised up.

THE FIRST FEMINE
JOURNEYMAN JOINER

Mrs. Mary Peschlow, Potsdam, Germany, has successfully passed the first examinations as a journeyman joiner, the first of her sex to so qualify. She does most of the repair work in her father's artistic furniture shop, of which she is now in charge. Mrs. Peschlow is only eighteen years old.

LABOR DIFFICULTIES
BLAMED FOR KILLING
OF AGED CARDINAL

Cardinal Soldevilla Y. Romero.

Labor troubles are believed to have been the cause of the slaying of Cardinal Soldevilla Y. Romero, aged archbishop of Saragossa, Spain. The prelate was shot to death by a band of men while sitting in his auto while visiting a monastery. His chauffeur also was killed and his secretary wounded seriously.

THIRD LARGEST
BROKERAGE
CO. FAILS

NEW YORK, June 8.—A petition of involuntary bankruptcy was filed against L. L. Winkelman and Company, Broad street brokers, members of the New York curb market, in the federal court today. The petition was filed by Charles E. Brady, Packard Brothers, Inc., and the Borg Printing Company.

The petition charges the company's liabilities total \$1,700,000 and assets are estimated at \$1,500,000.

The concern has offices in Chicago, Philadelphia, Cleveland, Baltimore, Pittsburgh, Akron, O., Zanesville, O., Findlay, O., Marietta, O., Parkersburg, W. Va., Wheeling, W. Va., Milwaukee, Wis., and Uniontown, Pa.

The concern is reported to have 4,000 customers on its books.

Federal Judge Bonds in hearing the petition appointed Charles L. Livingston, under \$50,000 bond, as receiver for the concern.

The firm is headed by Louis L. Winkelman, who was admitted to the New York curb market in 1911. Angus K. Nicholson is the other member of the concern.

The company is the third largest concern of its kind in the United States.

Former Grafton
Woman Called

The death of Mrs. Nellie E. Wolcott, 66, took place at her home, 208 Second street, last night after an illness of some duration. The deceased was the wife of the late Dr. Chester J. Wolcott, of Grafton, and she has lived in this vicinity nearly all her life.

She is survived by two daughters, Mrs. P. R. Pierce, of Pittsburgh, and Mrs. Frank Luce, of Denver. Funeral services will be held Saturday afternoon at 2:30 at her late home. Burial at Butterworth Ridge cemetery.

MILLIONS GOUGED
FROM PUBLIC THRU
WRONG PROMOTIONFORMER POLICE
OFFICER IS
SLAINMoonshine Victim Terror-
ized Mourners of His
Grandmother; Slayer of
Policeman Captured

CINCINNATI, June 8.—Crazed by raw moonshine, a former patrolman last night was killed by a policeman after he had kept a second officer cowering with a pistol for an hour, threatening to kill it any effort were made to arrest him.

The killing ended a series of melodramatic scenes at 1318 Race street, where Wallace H. Speers, 33, terrorized mourners watching in the death chamber of his grandmother.

Held Officer Captive
Speers was killed by Police Detective William McCormick, after a squad of police had watched the crazed man grimly guarding Patrolman Charles Hartley, shouting that he would drill a bullet into the brain of the captive officer if attempts were made by anyone to enter the barricaded room.

In the adjoining room was his grandmother's body surrounded by cowering relatives whom he had massacred throughout the evening.

A police cordon including a dozen members stood helplessly about, unable to storm the room because of fears that Speers would redeem his threat and murder Patrolman Hartley. Finally the former policeman, blundering into a position where he could be shot, was dropped by a fusillade from McCormick's pistol.

Speers was unmarried and lived alone in an apartment in Walnut Hills. He was at one time a traffic officer, but was dismissed for excessive use of intoxicants.

Mayor Threatened
LOWELLVILLE, O., June 8.—Joe Saino, charged with having shot and killed Patrolman Walter Flickinger on the streets here last night, after having threatened the life of Mayor C. J. Zuercher, was captured by a posse this morning and lodged in the village jail. The entire village turned out in an all night hunt for the man believed to be insane.

With the price rising Cuba exports increased during March. For February the exports were given as 474,765 long tons and in March 647,008 long tons. The last figures exceeded the 512,251 long ton export of March 1922, when the price was low.

Exports of American sugar likewise increased in March to 51,632 long tons from the 29,478 of April. Both figures were below March, 1922, when 105,462 long tons were shipped abroad.

INDICTMENTS OF
DRY OFFICERS
MAY FAIL

CLEVELAND, June 8.—Judge D. C. Westenhaver in federal court here today took under advisement a motion by the defense to quash the indictments against former federal prohibition director Joseph Shearer, former prohibition director Fred Counts and Samuel Hoskins and George Frank Counts, jointly charged with conspiracy to violate the prohibition law. He announced that a decision would be handed down early next week.

In asking the court to quash the indictments, ex-Judge William L. Day, of counsel for the defendants, declared that the indictments were indefinite and defective; that they failed to allege that any attempt had been made to bribe federal prohibition officials and do not show where these officials had received any money. He said that one count contained two charges, causing this to be defective.

District Attorney A. E. Bernstein decried the motion and also opposed a continuance of the cases until the fall term as requested by defense counsel. He stated that there were reasons which could not be disclosed in open court why a speedy trial should be held.

3 Cincinnatians
Commit Suicide

CINCINNATI, June 8.—Three Cincinnatians committed suicide late yesterday and last night, resorting to three methods, but for similar reasons.

One shot himself, a second used a rope and a third leaped to death. All had reached middle life. One, Frank Engert, 54, of 14 East 15th street, who used a mirror to direct the shot into his brain. He left two notes indicating ill health, one of them saying:

"I cannot get well. Tell Doc to open me up and let the public know I am not an imagination."

Mental distress, rather than physical malady, was feared by William F. Gresham, 58, who hanged himself in the attic at his home, 1809 Breamore street. He drank and consumed in an enormous quantity and left a note which he said that he would be "found in the attic."

Russia Accepts
Jap Conference

TOKIO, June 8.—Commissioner Joffe, soviet Russian envoy, late today announced acceptance of Japan's offer of a conference upon a trade agreement and the question of recognition of the soviet government. He requested that the conference be held in Tokyo. Joffe said he was expecting full power to negotiate to be received from Moscow at any minute, following which he would be in readiness to open negotiations.

Petit Jury Will
Convene Monday

A new petit jury was drawn this morning for service Monday morning, as follows:

A. Baker, Amherst; W. L. Scott, John Gull, John J. Cornwell, Kohlmeyer, Michael Langman, John Gibson, Lorain; Homer Loney, Pittsfield; E. A. Ralston, Oberlin; C. L. Sotherland, George Philpott, David Decker, J. C. Paresch, Louis Sutcliffe, Chas. Daney, Elyria; Frank Wooster, Oberlin.

It has been desired by government officials that the advance price was due to speculation. On the other side of the fence an alleged "shortage" was held responsible.

Further official reports will close the situation of sugar stocks in the United States and Cuba for April and May and these figures will be of value to the government in determining just what is being done to the market by manipulators.

Due To Speculations
It has been desired by government officials that the advance price was due to speculation. On the other side of the fence an alleged "shortage" was held responsible.

With the price rising Cuba exports increased during March. For February the exports were given as 474,765 long tons and in March 647,008 long tons. The last figures exceeded the 512,251 long ton export of March 1922, when the price was low.

SHOOTING OF WOMAN
DAYTON, June 8.—Mrs. Elizabeth Smith, 44, is said to be dying in St. Elizabeth hospital with a bullet in her abdomen, and Cielo Frank Longo, 73, is in Central police station charged with the shooting as the result of a neighborhood quarrel last night.

LITTLE CHANGES IN BUYING OF PRODUCE
Home grown vegetables have not yet appeared on the market and all offerings are from the southern mar-

ket, or are raised in hot houses. There is but a limited supply of everything except asparagus, lettuce and pie plant. Strawberries are of poor quality at present. A period of rain and cool weather in the section where they are grown has retarded them. A fine array of passables can be found at a very reasonable price.

The first shipment of Imperial Valley muskmellons is on the market. They are of good size but high in price. An occasional shipment of Georgia watermelons can also be found on the market. Prices of green stuff is practically the same as last week. There is also but little change in the fish and meat prices. A large supply of good quality can be found at the groceries, meat markets and market houses.

Unions in Spokane are building a \$75,000 labor temple.

The lobster catch in Rhode Island last year brought \$645,000.

BARGE CREW IS RESCUED

LORAIN, June 8.—Seven members of the crew of the barge Cottford, of Saginaw, Mich., were rescued this morning by members of the life saving crew. The barge was being towed here from Cleveland and as it arrived at the east breakwater the tug tow line parted on account of the high wind blowing. The barge struck the pier, and was in danger of foundering when the life crew put out to the rescue. After a severe battle with wind and waves the tug successfully accomplished the rescue. The barge was later released and towed into the harbor. It was in command of Capt. James Hall of Saginaw.

BOY SCOUT DROWNED

DAYTON, June 8.—Robert Davis, Jr., 15-year-old boy scout, son of Robert and Mabel Davis, was drowned in the lagoon at Island Park, near the dam, while swimming with other scouts last night. The organized labor movement in Great Britain has experienced a decided slump during the past two or three years. During that period the total membership of the British trade unions has decreased about 1,500,000.

Hot Chocolate Sauce (For Cream)—Put four squares of unsweetened chocolate into a saucepan. Set this into a second one containing hot water, let the chocolate melt on the dry pan, then remove and stir in first half of cup of sugar, then a half cup of hot water. Return it to the fire and stir until the sugar is dissolved and the mixture smooth, then without stirring until a little dropped into cold water can be taken up and rolled into a ball between the fingers. Do not let it cook more, but keep the pan in hot water until ready to serve, then turn it into a hot sauce dish. It will harden and form a crust when turned over the ice cream. It is necessary to make it in the order directed. If the chocolate is not melted on a dry pan it will be "grainy," several hours at least. While very damp iron with very hot iron. (This is not good for cotton or mixed tablecloths.) Napkins are handled in the same way, dipping half the number of napkins and then alternating the wet with the dry ones, then folding down.

Home Made Ice Cream—To make plain ice cream take two cups of milk, a cup of cream, half a cup of sugar, two whole eggs and a teaspoon of vanilla. Mix the e-

CAN DUNDEE TAKE CRIQUET'S LEFT TO THE BODY?

Movie of new featherweight champ, putting over his left to the body, the blow which brought Kilbane's guard down and spelled his ruin.

The blow that spelled Johnny Kilbane's end as featherweight champion of the world was a body paralyzing left to the region below the heart—fired there by Eugene Criquet. The blow brought Kilbane's hands down as it struck home and left the way open for Criquet to plant his right on Kilbane's jaw for the k. o. Johnny Dundee, jumping artist, gets the first crack at Criquet's title. Now the flat world is discussing whether Dundee can weather the wallop.

HE'S MISSED BY GIANTS

The return of Virgil Barnes to duty would be a welcome sight to Jawn McGraw, Giant boss. Virgil underwent an operation at the start of the season and has not been available for duty since. When the younger brother of Jesse is right he is a dependable winning pitcher. With him available McGraw could show his Giants farther into the lead.

STABILIZING BUSINESS IN THIS NATION

Babson Believes Advertising of Equal Importance With Banking

ATLANTIC CITY, June 8.—Roger W. Babson guest of the Associated Advertising Clubs of the World in convention addressed the main body of the meeting on Wednesday and Thursday. Mr. Babson is much interested in the latent power of advertising in connection with the distribution of goods and as a factor in studying business conditions.

"When the Associated Advertising Clubs of the World was formed, there was a great need for systematic vigilance and guidance," says Mr. Babson. "The condition of the advertising world was far below average business in usefulness and morality. Advertising was largely confined to patent medicine manufacturers, theatrical troops, and bogus stock promoters. Advertising was considered a gambler's game. The old saying 'Everything is fair in war and love' was extended to read 'Everything is fair in war, love and advertising.'"

"The first task of the new organization was to form vigilance committees and bring about honest advertising. It deserves the greatest credit for the work it has done and is doing along this line."

Urges Advertising
"There are, however, other things which are equally important, and perhaps more important when all possibilities are considered. If one looks ahead to the future of advertising, he will find three additional fields of development."

"The leading advertisers are each year giving more thought to the question of competitive advertising. By competitive advertising I mean advertising which does not benefit the country as a whole. There is nothing dishonest in both the Standard Oil Company and the Texas Company erecting large sign boards at the same point on a country road. Moreover, I am not criticizing either company for doing this. If one company does it, it is perhaps necessary for the other company to do it. I, however, am sure that these signs do not increase the sale or use of gasoline and in no way benefit the country as a whole."

"The cost of such competitive advertising is ultimately borne by the consumers. From an economic point of view such advertising is a direct loss to the nation as a whole. The people of a country are best off when they get the largest amount of goods for the least amount of labor. Therefore, we all should strive to eliminate, so far as possible, unnecessary labor and to use labor for the actual production and distribution of goods. Instead of erecting competitive sign boards, carpenters should be building houses for working men; instead of using electric power for competitive advertising, it should be used for productive industrial purposes; instead of wasting newspaper space on competitive advertising, the same space should be used for constructive advertising."

"Every sensible man recognizes the value of constructive advertising. Statistics show clearly that most goods can be sold more cheaply and effectively thru advertising than in any other form. Advertising, when properly used, is considerably cheaper than selling thru salesmen and clerks. Not only is the cost per sale less but, when selling thru the newspapers or the mails the maker knows just what he promises. The firm, however, who depends upon a crew of salesmen does not always know what the salesmen promise. There are many other economic advantages gained thru the intelligent use of constructive advertising."

"Finally we shall have what I like to call 'ultimate' advertising. The history of the advertising agent will be similar to the history of the banker. Banking as you know started with the pawn shop. The loaning of money in its early stages was looked upon as a most illegitimate business and carried on under cover by questionable people. Usury was not only sanctioned by the church, but by legislation. It was only comparatively a few years ago, considering history as a whole, when banking was recognized as a legitimate business."

"During the past hundred years banking has gone thru various stages. The first campaign was to eliminate dishonest banking; the next step was to eliminate competitive banking; and the present generation has been engaged in constructive banking. The country is now learning, however, that the banker has great opportunity in steadying business conditions, thereby eliminating reckless booms and preventing needless panics. It has been learned that by increasing the bank rate, during periods of over expansion, a panic can be prevented. Then by lowering the rate during periods of depression, prosperity can be brought back. It has been learned that the bank rate bears the same relation to business that the governor bears to an engine. Hence, the banks have been recently united in the Federal Reserve System which can control the discount rate with the sole object of eliminating reckless booms and preventing needless panics."

KING GEORGE VISITS SOLDIERS' BARRACKS

King George "kide" kiddies of soldiers at Aldershot barracks. Times certainly have changed. Recently King George of England, minus the usual trappings of royalty, visited the families of soldiers at Aldershot barracks, chatting with the wives and children.

Some day your 'Associated Advertising Clubs of the World' will take up the question of using advertising rates as a tool in connection with the steadying of business conditions.

"When business is recklessly expanding, advertising rates should be materially increased; so that when business is depressed advertising rates may be correspondingly reduced. One of the best barometers of business is the size of our daily papers. I do not want to reduce the size of our papers over a period of years. Rather I want to see them continue to increase in size. I, however, do object to a big paper one year and a small paper the next year. Business conditions will become steady and gradually increase only when the amount of advertising becomes steady and gradually increases. Violent fluctuation in advertising is not merely the result of fluctuation in business; but are largely the cause."

"Advertising Necessary because its business has fallen off, but the fact of its stopping advertising makes business still worse than it otherwise would be. To speak statistically, advertising begins to fall off because business begins to decline, but business declines to the depth much worse than it otherwise would because advertising is decreased. The changing of advertising rates and railroad rates in accordance with the Babsonchart would not only greatly benefit business as a whole, but would benefit those who have advertising space to sell and those who have transportation."

Pot grown Salvias, 30c per doz. Resar, the Florist.

tation to sell. Business in every way will be helped by what I call this ultimate advertising. May we hasten the day when it will be used."

General Business as reflected in the Babsonchart continues in satisfactory volume, running this week at 2% above normal.

Tagging the Bases

The Noble Giants dropped their first series of the campaign when they lost to "Hack" Miller, Charley Hollocher and the Cubs, in toto 9 to 7. Miller's homer in the seventh tied the score, and his double in the eighth won the game while Hollocher obliged with five hits. Meusel smote two home runs in a last cause.

Thanks to the pitching of Rommel, who didn't allow a hit in the last six innings, the Athletics came from the rear and beat the Browns 8 to 5.

Smith's single and Blade's triple produced the only run of a ten inning pitching classic, involving Jeff Pfeffer and Jimmy Ring, the Cardinals noting in 1 to 0.

The Reds concluded their own clean up week today taking the final game from the Braves, 3 to 1, Rixey outpitching Oeschger.

CHARLES THOMSON

"The Money's Worth Cigar"

Methuselah didn't live long enough

In a few more thousands of years he could have been smoking the good Charles Thomson with the best of us.

Like all prudent men of his day, Methuselah demanded value when he bought—even if he didn't have a good, round American nickel to buy with.

When you buy a cigar, stick to the world-old principle of buying and get "the money's worth cigar," the Charles Thomson.

A full size cigar of Bayuk Quality. Of quality, value and flavor only possible because of great purchasing power, volume production and small margin.

THE PROHIBITION QUESTION

Yesterday we spoke of the League of Nations as being one of the main issues in the next Presidential election. Following closely and of almost equal importance, the next issue is the prohibition question. It is probable, however, that the prohibition question will be more far reaching and break further asunder party lines.

A number of the eastern states are undeniably wet in their sentiments. Among these are New York and New Jersey. Governor Smith, by his signing the prohibition enforcement repealing bill, has assumed the leadership of the wet democrats in the United States. He will have a large following in Massachusetts, Rhode Island, Delaware, New Jersey and Illinois.

But on the other hand, the South solidly democratic is solidly dry, and while they may vote for a moist candidate for president as was Governor Cox reputed to be, it is questionable whether they will ever stand for an out-and-out wet advocate like Governor Smith of New York or Ex-Governor Edwards of New Jersey. Even if they should be able to nominate him, there will be a tremendous following of the dry order headed by that old stalwart—William Jennings Bryan, who will repudiate the ticket rather than stand for the wet regime.

But it does not look as though the Republicans are going to have sweet unity in relation to this issue. For while the administration has come out pronouncedly for the enforcement of the Eighteenth Amendment and the Volstead Act, there are those inside of the Republican party who do not agree with the president on this issue—notably Secretary of the Treasury Mellon. A good many who profess to be dry, refuse to take what they term as the extreme view.

So 1924 is going to see great interest in our national campaign. For the first time the prohibition question will be one of the paramount issues and the lineup will change.

Moral issues are clarifying issues and are helpful to the character of a nation. This is a moral question relating primarily to the individual life and habits. The campaign itself will be educational and will be of inestimable value to America.

The chiefs of some African tribes are accustomed to carry fearful looking hatchets called Trombachs in their belts when in council meeting as a testimony to the fact that they are ready to fight at any time. The pugnacious instinct is not always so manifest among civilized peoples but the braggadocious "gun-toters" have not left their African cousins so very far behind.

Some of the things you thought you would do haven't been accomplished, and some of the things you promised to avoid have seemed to stumble out of your activities.

We have a lot of things for which to be thankful; think how lucky we are that Christmas comes when we don't spend quite so much for gasoline.

Back of every movement for the advancement of the world is the inspiration of someone who understands the value of ideas and activities.

There's a lot for each of us to do, and the fact that many neglect their portion augments the portion of those who will help.

When Justice Taft upholds personal liberty he doesn't necessarily mean the "personal liberty" advocates think.

So many of us fail to appreciate the good things we possess that it's not strange if they slip from us.

Merely wishing for something doesn't prove your claim to it. Constructive effort insures results.

We ought to do more for the one who is less fortunate and less for the one who can help himself.

Some of the things you'd rather do may only seem attractive because you can't do them.

Self praise might get more approval if more deserved.

People may not like to stand alone, but there seems to be a general willingness to stand still.

If we plan for something better we will have a better chance of realizing it.

KOMICAL TELEGRAMS

By JIM ARMITAGE, Himself

We're getting to be quite a catty now we're going to have a "PEONY SHOW." You simply can't stop us.

Was up to their meeting last night and as usual pulled a boner. I called 'em PINIES—that's what they used to call 'em when I was a kid, but we're way out in front now and everything's changed.

Funny what culture will do to a fellow. Anyway they're going to give a show and we might just as well call 'em PEONIES. They look just as good.

I didn't even smile when they mentioned GLADIOLUS. They put the accent on the DIE. But I'm broadminded—and didn't even correct 'em.

It's an amateur growers exhibition. All the professional growers are devoting their time to the dandelion—there's more headaches and good ideas in them.

Guess C. E. Lozier is the guy who put "GLAD" in Gladiolus. Anyway they elected him President.

Henry Andress was in the crowd and seemed to enjoy it immensely—except when Jim Thomas talked too loud and woke him up.

And the kids are invited to display roses, so if any of yours are missing that night—you know where they are.

Missus C. E. Lozier made a suggestion and the president said: "Yes, I think you're absolutely right." I knew the motion was going to carry. I've been married sometime myself.

Seems as though the idea is to have everybody plant flowers. That seems like a good idea, but I'm not sure if Bill Sudro and Eddie Welsh will be content with that.

I'm strong for Violets and Daisies and flowers like that. But you ought to hear the flowers those brothers and sisters were telling about. It's too bad I'm not a better speller, I'd then be able to tell you about 'em.

Jake Murbach didn't show up. They expected to get some good ideas from him. He conducted a flower show in Lorain a few years ago.

They want the Sunflower adopted as the official flower for Father's day but some thought the daughter might get sore. So father don't get any flowers. When he does—they're over him.

It looks like a good idea. After a fellow gets too old to take an interest in base ball and things like that—he raises flowers. Then after he gains a couple of laps on father time he spends his declining years playing golf.

They're going to "Say It With

flowers" and as a large number of the members are of the "gentler sex" you'll probably hear 'em.

WILLIAM ATHERTON DU PUY

The work of William Atherton Du Puy as American representative on the labor commission of the league of nations and his views on the future of the league, expressed since his return from abroad, has brought him into the limelight.

Du Puy's work on the commission had much to do with the standardization of wages, especially those of the seamen all over the world.

Du Puy is well known as a writer and journalist. Born in Palestine, Tex., January 6, 1876, he moved to Arizona and received his education in the public schools there and at the University of Arizona, where he spent two years. He entered the newspaper game after leaving school and worked as reporter in Houston, New Orleans, Vicksburg, St. Louis, Washington, New York and Philadelphia. Then he organized the Du Puy syndicate in Washington in 1907.

He originated and was the first editor of Sea Power, which began publication in 1916. He served as field secretary of the navy league of the U. S. in 1916-16.

When the war broke out he was made captain in the military intelligence division of the army. At the close of the war he became general manager of the Haskin newspaper service and a year later in 1920, went with the Philadelphia Public Ledger syndicate.

He has written several books, some of them dealing with the progress of the U. S. His home is now in Washington, D. C.

TIMELY VIEWS ON WORLD TOPICS

"MINIMUM WAGE FOR WOMEN MUST PROVIDE FOR ATTRACTIVE DRESS."

Miss Rose Schneiderman of New York City, President of the New York City Women's Trade Union League and Vice President of the national organization, said recently:

"An ideal minimum wage for a woman should permit her to live in a decent neighborhood, eat wholesome food and dress in an attractive way. The wages of a woman in the country who is working for the first time in a large city, and has not gone to the homes and conversed with the parents and pupils in certain one of the said school district. The situation was misrepresented to him as it was to the voters, in one township at least.

"Of course it is not possible to accomplish this by one leap and bound. No matter, though, where a woman works her living expenses are about the same. Even when she lives in a small town and works in a factory she pays more for her clothes if rent is cheaper, so the thing is evened up. No. 1 would say that \$25 weekly would be an approach toward an ideal minimum wage, and no State approaches that so far. It will take time."

"Women should be as well paid as men. Their expenses are about the same, if single, as the single working man, so why should they not be paid as well. Women make good workers and are needed."

POEMS THAT LIVE

WHEN WE TWO PARTED

When we two parted
In silence and tears,
Half broken-hearted,
To sever for years,
Pale grew thy cheek and cold,
Colder thy kiss;
Truly that hour foretold
Sorrow to this!

The dew of the morning
Sunk chill on my brow;
It felt like the warning
Of what I feel now.
Thy vows are all broken,
And light is thy fame;
I hear thy name spoken,
And share in its shame.

They name thee before me,
A knell to mine ear;
A shudder comes o'er me—
Why wert thou so dear?
They know not I know thee,
Thy spirit I hope to see,
Long, long shall I rue thee
Too deeply to tell.

In secret we met;
In silence I grieve
That thy heart could forget,
Thy spirit deceive.
If I should meet thee
After long years,
How should I greet thee?
In silence and tears.

VOICE OF THE PEOPLE

ON HENRIETTA SCHOOLS

Henrietta, June 5, 1923.

Sir: The article by Mr. Comings that appeared in the Chronicle-Telegram Monday was read with interest and, by those who are familiar with the real conditions, with disgust. An apology to Mr. Comings who undoubtedly had all the information from the same source and has not gone to the homes and conversed with the parents and pupils in certain one of the said school district. The situation was misrepresented to him as it was to the voters, in one township at least.

Surely there can be no reason why the boys and girls of our rural communities should not enjoy the same educational advantages as the city children, but do they? How can a community of twenty to thirty high school pupils support the class of high school these pupils deserve? A man of Mr. Comings' intelligence and experience can readily see the many advantages to be gained by our rural pupils attending a large, first-class high school.

Truly, "The little red schoolhouse" is a thing of the past, but are we not sacrificing some of its advantages in our enthusiasm to expand the tax-payers' money. Are we really preparing the child for a higher education as were some of the principles taught there?

The statement, that the Henrietta motor bus not missing one trip is untrue. As stated, these buses were supposed to make two trips twice daily. A number of times the pupils were all crowded into the bus at one time to eliminate the necessity of two trips, and on several of those extremely unpleasant, cold March days the pupils were gathered on the good roads in a Ford truck with a stock rack on some straw thrown in and brought to the hill, where they were transferred to a hay wagon drawn by four horses, and it required more than an hour to transport those children less than two miles.

On another route a number of children were hauled several miles in a wagon, before they got to the improved road where the bus waited, others were asked to walk three-quarters mile across lots to meet the bus.

The writer's children walked nearly three-fourths of a mile then waited three minutes to more than one hour, and the board made no arrangements for shelter for them. I imagine I hear some readers say, "They can't compel them to do that," but it is not always wise to cause litigation to obtain even justice. Only once, however, did the bus wait three minutes or less for them.

MAY HELP SOLVE GERMAN REPARATION

SAYS CONSCRIPTING OF CAPITAL WOULD STOP ANOTHER WAR

CLEVELAND, June 8.—There would be no need for a world court for the prevention of war were the ideas expressed by President Harding in his Memorial Day address written into the national defense act former congressman Charles L. Knight, in a speech before the Exchange club here today, declared.

"We are to give the world the example of passing a national defense act, conscripting labor and capital, and which would not allow a dollar to be made out of war. Europe would follow us or face revolution at the hands of the people," Knight said.

"The league court to prevent war is a chimera. It has no jurisdiction, and no methods by which it can enforce its decisions. Hence it could give us nothing we do not now have in the Hague tribunal."

"President Harding was undoubtedly in earnest concerning his expressed idea of national defense. That being the case, he undoubtedly will advise the next congress to repeal the conscript act that now devotes the youth of our land to war, and will advocate conscripting all capital and wealth, and all male citizens up to the age of 50, the latter to be placed where needed, not at a dollar a year or \$10 a day, but at the wages of a soldier."

It is probable that the British will advise Premier Poincaré that his views are not those of the League government.

WASHINGTON, June 8.—Premier Poincaré, acting for the inter-allied council of ambassadors, today headed a note to the German chancery d'affaires stating that the council had unanimously agreed that the inter-allied control commission in Germany forthwith.

Germany was threatened with fresh penalties if officials at Berlin and elsewhere obstruct general Nollet, head of the commission.

WASHINGTON, June 8.—If an international conference as proposed by Berlin in the latest German note to the allied powers, the United States in all probability will be represented, it was learned here today from official sources.

The favorable impression created in Washington by the German offer became more pronounced today after thorough examination.

Germany has met France "more than half way," according to the opinions privately voiced by administration officials and the hope was generally expressed that the Poincaré government in France would step part way out, at least, to meet it.

Administration officials pay Germany the compliment of believing that her latest offer is sincerely made, and that it represents the maximum limits to which any German government could go at this time and still remain in power.

Despite the distinctly favorable impression created here by the Cuno offer, there was an underlying feeling of the pessimism that is rampant in official quarters today over its chances of success. Press despatches from Paris, supplemented by official advices reaching Washington, indicated that the "hard-boiled" Poincaré government is but little more favorably disposed toward Germany's latest proposal than it has been toward all the others.

If the French "die hard" turn down this offer, without leaving the door open to continued negotiation, administration officials believe the peace will be seriously in jeopardy in Germany, but also in bringing into renewed and probably sharper conflict the governments of France and Great Britain. The slender thread that has been holding the Franco-British entente together for months probably will be snapped altogether.

Germany's proposal for an international conference to fix the maximum amount that Germany can pay follows in a general way the proposition advanced by Secretary of state Hughes months ago. He proposed that an international commission of economic experts be formed to make a complete audit of Germany's assets, the amount then to be determined from the results of such an audit. Those proposals met with a rejection in Paris so symptomatic to amount almost to a snub.

Germany's proposal for oral conferences and a new reparations meeting. Capitals of the nations financially concerned in the reparations issue received Germany's new offer with conflicting views. Sentiment was summarized as follows:

PARIS: German offer unacceptable because Germany failed to promise an end of passive resistance in Ruhr.

LONDON: German note favorably received. British believe it a step toward ultimate settlement.

BRUSSELS: Belgium will follow any lead taken by France in replying to German proposals.

WASHINGTON: German communication favorably received.

ROME: German offer criticized by organs of fascist government, because it does not mention passive resistance and pledges guarantees which are believed inadequate.

BERLIN: German nationalists bitterly assail German reparations note and Cuno government, claiming the note was promised allies.

BERLIN: "France had better keep her greedy hands off the Rhineland," declared.

Braun, of Prussia, in a speech of wariness in the Prussian diet this afternoon, "France is daily proving the policy that might is right."

ON THE SPUR OF THE MOMENT

He stood by the slithering snake
And he gazed day by day o'er
The foam.
His sailor had told her that he
Would surely tomorrow be home.
Tomorrow, alack, never came.
Her face it was furrowed with
Care.
She knew all the tricks of his game

His vessel might land anywhere.
Weeks passed and he sent her a
note.
"What a castiron dumbbell!" she
sighed.
Twice for Fort Leavenworth that
he wrote.
Oh, alas, for the bootlegger's
bride.

Again are we confronted by the theory that the lives of Americans can be lengthened a number of years by following certain rules. People in America should live twenty years longer than they do, and the chances of their doing so are increasing," is the statement made by Arthur W. Hedrich of the American Public Health Association.

Mr. Hedrich who says the association he represents hold his views said: "Within the next fifty years as much as twenty years may be added to the expectancy of life which prevails throughout the United States." He also said that in the last seventy-five years human life has been extended not less than fifteen years in many countries and that the gain has been greater in the last twenty years than in the preceding fifty.

But again there rises the old question as to whether the people whose lives are to be extended twenty years are going to be asked for their permission. Are they going to be given any choice in regard to the matter? There are some who doubtless would like to be consulted. After some men have struggled along for seventy years dodging gamblers, bill collectors, high cost of living, income tax, high-brow lectures, landlords, modern bunk epidemics, they have about enough. Very few people can afford to live to ninety at present prices.

A certain snooty society sent out one thousand letters to women in various parts of the country to investigate how much spooning is being done before marriage. Of the thousand women, 389 claimed in their replies that they had never spooned before they were married and had not even been kissed by their fiancés. The other 611 replies probably told the truth.

A LITTLE SLICE O' LIFE
I knew a parlor bolshievist.
She was very radical indeed.
Believed in the rights of workers.
Said every person should
Depend upon his own exertions.
All should be exalted equals.
With no master and servant.
She made loud medicine
On this subject for two years
And one day her hired girl
Got tired of listening to the bunk
And she walked out and the radical
Had to go to work and get dinner.

If the young women can drive taxicabs the way they drive bargains, the speed regulations in this town are not going to mean a thing.

ELDER BABY WHEN STOLEN AUTO IS FOUND

CLEVELAND, June 8.—After the most thrilling experience of her young life, Miss Eugenia Claire Thompson, aged five months, was found at home today, but declined to be interviewed.

The young lady was an unwilling passenger while her parents were stolen by auto thieves, made a long trip.

Mr. and Mrs. Edward Thompson, both Eugenia asleep in the cozy rear seat of their sedan, drove up to the dance hall at Edgewater street at 9 o'clock last night. They went out and went to talk to Harry A. Thompson, an uncle, proprietor of the dance hall.

Returning to the spot where they left their car ten minutes later, they found it and their daughter missing. The mother screamed. Flying squadrons of police were hastily dispatched at midnight the car was found on West 118th street.

The baby was still enjoying her nap. It was believed by police that the thieves abandoned the car, when they found their extra passenger.

Gained Five Pounds on Every Bottle of Tan-lac She Took.

MRS. FANNIE JUDSON

"There is nothing better I could say for the Tanlac treatment than that I am still enjoying the splendid health it brought me four years ago. I have not had to spend a dollar on medicine since that time." is the statement of Mrs. Fannie Judson, widely known and esteemed resident of 223 Albert Street, Windsor, Ont.

"Before taking Tanlac I had suffered from a complication of ailments for five years and seemed almost on the verge of a complete breakdown. I had fallen off to a skeleton and was so nervous I couldn't even hold a writing pen. I couldn't sleep, scarcely ate enough for an invalid and suffered from indigestion.

"I would not go through all that suffering again for \$5,000. I used bottles of Tanlac and gained five pounds for every bottle and am now in good health now as I was any schoolgirl."

Tanlac is for sale by all good druggists in the United States. \$2.00 per bottle sold.

Five Vegetable Pills are also available by mail.

YELLOWSTONE GEYSER GETS REAL "PLAYFUL"

Destruction wrought by Yellowstone's newest geyser.

Another geyser has been added to the attractions at Yellowstone National park, but so far only the guards have seen it in action.

Evidences of its "playfulness," scalded trees and washed-out roads, are plain, but it has not yet joined the circle of "respectable" geysers which spout according to schedule for the benefit of tourists. It still "plays" to suit itself.

OPENING OF BLUE BIRD SWEET SHOPPE ATTRACTS HUNDREDS

The Blue Bird Sweet Shoppe, formerly the Palace of Sweets, was the center of attraction yesterday afternoon, on the occasion of its reopening after an elaborate program of refurnishing and decorating at a large expense.

Both afternoon and evening, this charming spot was visited by hundreds of ladies, gentlemen and children, and their exclamations of delight as they looked at the rich surroundings, the harmony of the color scheme and the elaborate decorations was very pleasant to the proprietor, Spero Valassis, whose own ambition has been to give this city one of the finest establishments of the kind to be found in the State. Many of the proprietor's business competitors and friends sent in large baskets of cut flowers accompanied by their good wishes.

In the afternoon the Blue Bird six pieces ladies' orchestra furnished splendid music. It is a musical organization of more than ordinary ability, and their efforts helped make the occasion a success. The management announced that for a time this orchestra will play each afternoon and evening. In the evening Miss Helen Billings sang a number of popular selections, that brought her merited applause. Thousands of carnations were given out during the day, and the whole affair was one that reflected on the good taste and enterprise of Mr. Valassis.

Pittsfield Home Victim of Fire

PITTSFIELD, June 8.—The residence of A. E. Hayes, in the southwestern part of this town was completely destroyed by fire yesterday at an early hour. Through the prompt work of the family and neighbors most of the contents were saved.

Theatre—Boris Karloff, who will be seen at the Colonial theatre in support of Katherine McDonald in "The Woman Conquers," a First National Attraction, might well be a Russian, judging by his name, and might well be some kind of an outlaw, judging by his appearance on the screen. But he really is an Englishman of gentle birth. He is a distinct type and has been lured from the stage to the screen, and has appeared in a number of prominent pictures. Katherine McDonald and Francis McDonald are also in this picture which is a fine one worthy of seeing.

Grand—"Mad Love," is a film sensation, with Pola Negri as the star. As Sappho she combines all the wiles and lures that centuries of practice have taught to woman-kind and spreads the net successfully over two brothers. Of the first she tires and drives him mad. He flees from her and marries another, but her magnetism brings him back.

American—Tom Mix in "Mr. Barnes of New York." This picture is a popular one, and many have seen it giving it their unqualified approval. Moore is supported by Naomi Childers, well-known on the screen. It is full of excitement and action, and has a regular plot that holds interest all the way.

Download—Nell Hart in "The Devil's Bowl." This is a typical Western drama, and the fact that Hart will be seen in it is all that is necessary to make it a success. In addition will be episode 11 of "Around the World," serial, as well as a comedy.

Organizing ability required
It seems a simple matter to deliver ice at your doorstep at a given hour each day. And still that simple act, multiplied by hundreds or thousands like it, performed on time, in all kinds of weather, would be impossible without organizing ability behind it.

In the first place, the ice dealer must make or store enough ice. Then he must provide extra wagons and men during a hot spell. In the fall and winter months he must route and re-route wagons to save expense.

A never normal business
Ice consumption varies. In January, for instance, ice delivery is likely to be one-twelfth of what it is in August and the cost three or four times as much.

In hot weather demand may treble in a single day. People are not prepared. They need ice all at once, and they need it badly.

A big responsibility rests upon the ice dealer.

Just think what would happen on a hot day if the ice delivery failed; what a food loss would result, what discomfort in homes and hospitals, what a menace to health.

And still, failure could easily happen—through a shortage of ice, a breakdown of equipment; horses or men overcome.

The fact that failure occurs so seldom is due entirely to the organizing ability and foresight of the average ice company. It is indeed a responsible servant of its community.

Is he a "Tire Dealer"—or Does he sell Silvertowns?

Motorists themselves draw that distinction. In every community some men are "in the tire business," while others are recognized as the Goodrich Silvertown Cord Tire dealers. The name of Silvertown symbolizes a merchant who is alive, far-sighted, prepared to serve his customers in the best way.

To these merchants Silvertowns signify the greatest value possible in tires. They have selected them as their leader because they know the advantage of the Goodrich principle of one quality, one grade and one name.

Your Goodrich dealer has back of him the entire Goodrich organization. With full stocks in all sizes of Silvertowns he is ready to take care of your tire needs immediately.

TODAY'S RECIPES
Raisin Biscuits—Two cups flour, one-half teaspoon salt, two teaspoons baking powder, two table-spoons sugar, one cup seedless raisins, chopped, add half cup of sugar and one or two well beaten eggs, a teaspoon salt and flour enough to make a soft dough. Add a little baking soda in case sour milk is used. This recipe can be used for your hot cross buns for Good Friday, a cross being scored on the top of each biscuit with a knife before baking.

Macaroni and Cheese—Cook macaroni until tender in salted water, from twenty minutes to half an hour, pour in collander and let cold water run on it for a moment, then drain. Melt a good sized lump of butter in a saucepan, add a tablespoon of flour and some salt as pepper or paprika, and gradually stirring constantly so as to keep it smooth, a pint of milk. When boiling add half to a cup of cheese that has been grated or cut up fine. Stir until cheese is melted and pour over macaroni. Put in greased baking pan, cover with bread or cracker crumbs or crumbled corn flakes with a little grated cheese and bake for twenty minutes or until brown.

Friction matches first came into use in 1830, and as late as 1850 were considered too dangerous to be transported by rail. The first sulphur matches put on the market came in square blocks of wood split well down, from which individual matches might be broken. When ignited a most offensive sulphur odor arose. This first individual matches, put up in small boxes, were imported from Sweden in the early eighties, and were a great improvement over the old sulphur match.

supper

CARNATION MILK

4 eggs; 4 tps. cornstarch; 1 tsp. baking powder; 1 cup. salt; 1 cup. Carnation Milk mixed with 4 tps. water.

Beat egg yolks until thick and lemon colored. Mix cornstarch and salt and add gradually to the cold milk, mixed with 4 tps. water, then add to beaten yolks. Beat egg whites stiff and add the baking powder, then cut and fold in the first mixture. Butter sides and bottom of heated double pan, turn in mixture, place on range where it will cook slowly. When brown on top, put in oven to finish cooking the top. The omelet is cooked when firm to the touch. This recipe serves from four to six people.

There are many other recipes as good as this in the Carnation Cook Book. Send for it.

You can see for yourself the superiority of

THE ARCH PRESERVER SHOE

LOOK at the above chart. It shows facts that you already know—but possibly you hadn't connected them with your shoes. Take the foot, as Nature planned it, then as civilization has used it, and finally study how the Arch Preserver Shoe meets the requirements of both Nature and Civilization. Of course, such a shoe is superior. Of course, it gives comfort. The concealed, built-in arch bridge makes it possible to support the foot properly and yet have the smartest styles too. Let us show you the new patterns.

Steady nerves depend on the condition of your Blood

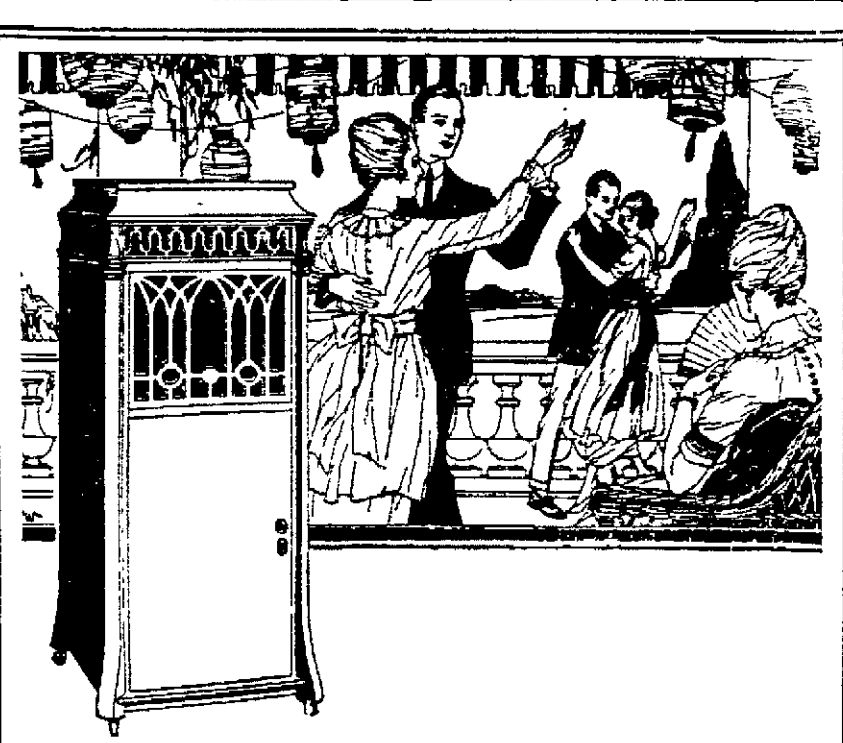

YOU know, will prove to you its "why" and "how" reason. S. S. S. contains only pure vegetable medicinal ingredients. Because S. S. S. does build blood-power, it rouses rheumatism, stops pimples, blackheads, boils, eczema, beautifies the complexion, improves the appetite, builds you up when you are run-down, and makes your nerves steady!

Mr. W. T. Hooker, 2321 Proctor St., Port Arthur, Texas, writes: "I suffered from Eczema for seven years and was afflicted with nervousness. I tried S. S. S. and six bottles cured me. I now enjoy good health. I think S. S. S. is the only sure cure for blood disorders on the market."

Try it yourself. S. S. S. is sold at all good drug stores. The large size is more economical. Get a bottle today!

S. S. S. makes you feel like yourself again

The Most Popular Porch in Town

Under the glowing lanterns in the mellow evenings of summer, you'll want to dance on and on to the fascinating music of the New Edison.

The latest Broadway hits, played by famous orchestras, are ready in New Edison RE-CREATIONS. These RE-CREATIONS play nearly twice as long as the average record—150 lines of music to the inch instead of the usual 90 lines. Among the June numbers are snappy fox trots and one-steps, delightful songs from the late musical shows, and instrumental novelties that have a dancing rhythm all their own. Let us play them for you.

MAGNESIA BEST FOR YOUR INDIGESTION

Warns Against Doping Stomach With Artificial Digestants

Most people who suffer, either occasionally or chronically from gas, sourness and indigestion, have now discontinued disagreeable diets, patent foods and the use of harmful drugs, stomach tonics, medicines and artificial digestants, and instead, follow the advice so often given in these columns, take a teaspoonful or two of tablets of Bisurated Magnesia in a little water after meals with the result that their stomach no longer troubles them and they are able to eat as they please and they enjoy much better health. Those who use Bisurated Magnesia never dread the approach of meal time because they know this wonderful anti-acid and food corrective, which can be obtained from any good drug store, will instantly neutralize the stomach acidity, sweeten the stomach, prevent food fermentation, and without the slightest pain or discomfort. Try this plan yourself, but be certain to get pure Bisurated Magnesia especially prepared for stomach use.

New Footwear Modes—Cool and Colorful

Graceful lines and brilliant colorings in the garment modes of Early Summer reveal the inspiration of Egypt and the Orient.

So too, in the straps, cut-outs and colorfulness of many of the new Footwear Modes are subtle recognitions of similar influences. But quite as important as the touch of smartness these styles will lend to your warm weather costumes is the cool, airy, comfort and exquisite grace of these foot-revealing fashions.

When you see these new Footwear Fashions you'll appreciate more fully than ever that our shoes are created to give pleasure, as well as service, to their wearer.

SPANISH WAR VETS MAY GET PENSIONS

The act of June 6, 1920, provides pension for Spanish war soldiers who served from 1913 to 1920 per month portioned to the degree to which ability to earn a support is less on account of mental or physical disabilities of a permanent character, not the result of vicious acts.

Prior to Aug. 26, 1921, the pension for Spanish war soldiers was based on the basis of a ten per cent permanent disability. Spanish war soldiers whose pensions were granted prior to Aug. 26, 1921, are entitled to have their disabilities considered on the same basis, and the pension bureau will re-rate such pensions upon application.

The member of congress for this district, Hon. Martin L. Davey, of Kent, who is maintaining as large an office force in Washington as ordinarily would be required when congress is in session, will be glad to hear from any soldier who was granted a pension under the act of June 6, 1920, prior to Aug. 26, 1921, and to assist him in securing such increase in pension as he may be entitled to receive.

The granting of such pension is confined to the States of Oregon and Washington.

RIDGEVILLE

By Miss Lola Shaw
Telephone 40255

RIDGEVILLE, June 8.—Mr. and Mrs. E. Poffenbaugh and daughter of Toledo, were Memorial day guests of Mrs. Poffenbaugh's parents, Mr. and Mrs. L. C. Schaber.

Miss Helen Wiley visited her sister, Mrs. Paul Ames, of Elyria, from Thursday till Sunday.

Mrs. May Bingham of Eustus, Fla., was a guest of her sister, Mrs. Strickland, a few days last week.

Mrs. M. W. Evans entertained her sister, Miss Donna Dyer, of Elyria, over the week-end.

Walter Umbstaetter of Marion, spent Sunday at the home of his father.

Florence Peck has been spending two weeks with relatives in Cleveland.

Mr. Krugman has returned to his home, having undergone operative treatment at Memorial hospital.

Last Friday, H. G. Stacey attended the field day and alumni banquet of Case School, Cleveland.

Miss Amy Saye entertained Miss Hattie McCoy of Elyria, over the week-end.

Last Sunday Miss Marjorie Thorpe of Cleveland, was a guest of her aunt, Miss Gertrude Kennedy.

Mrs. C. W. Wiley spent Sunday with her father in North Olmsted.

Mr. and Mrs. Leslie White of Spencer, were guests of the latter's parents, Mr. and Mrs. O. C. Hadaway, on Sunday.

Mrs. Harriet Burrell entertained her daughter, Mrs. Demuth, on Sunday last.

On Saturday last, Mrs. Frank Brown, Miss Adele Brown and Mrs. A. Kidney of Elyria, were callers at the home of J. Lafrinier.

On Memorial day Mr. and Mrs. B. C. Miller entertained Mr. and Mrs. Chas. Dittick, Mr. and Mrs. Clifford Bradfield of Cleveland, Mrs. Lucinda Palmer and Mrs. Clark Harrington of Lorain.

Sunday, Mrs. Gertrude Dean went to Cleveland to visit her daughter for a few days.

Mrs. Tamblin was called to Cleveland by the death of her sister, Mrs. Schaefer.

Mrs. C. W. Wiley was a guest of his sister in Lakewood on Wednesday.

Mrs. Arthur Clark accompanied by her mother, returned Sunday from a two weeks' stay in Gibsonburg.

Mr. and Mrs. Lawrence Dechart

have moved into the Lehman house next to the town hall.

On Friday of this week Mrs. E. S. Peck will entertain the Shakespeare club of Cleveland, of which she is a member. Her daughter, Mrs. Conner, of Akron, arrived Thursday to stay over Friday with her mother.

On Sunday last, Dr. and Mrs. Ben Harris entertained Mr. and Mrs. Shirley Garfield, of Sheffield, and Mr. and Mrs. Maynard Hicks, of Lorain.

Tuesday of this week, Mrs. Mary Falkner delightfully entertained the Sunshine club at her home.

On Sunday evening, June 17th, thirteen will graduate from the Parochial eighth grade schools, making 35 graduates in Ridgeville this year.

Owing to the delay in publishing the last Ridgeville letter, the date given for Miss Sharpe to sing at the Congregational church was wrong. She ably assisted the choir last Sunday and also sang a beautiful solo.

June 10, forty children of St. Peter's church will receive their first holy communion at the 8:15 mass. The local uniformed Knights of St. John will be the guard of honor.

Next Sunday morning, June 10, Children's day will be observed at the Congregational church. The children and young people will

All Geraniums 10c each or \$1 per doz. Resar, the Florist.

have charge of the regular morning service, beginning at eleven o'clock. A unique program has been arranged, a part of which will be the older classes telling what they have accomplished in Sunday school the past year. The regular Sunday school session will be continued.

A bad freight wreck occurred at Shawville station last Saturday afternoon when twenty-one empty freight cars were derailed, at least three of which were destroyed.

Both women and men were blocked for hours and the wrecking crew worked all night long the wreckage. Fortunately one was injured. Several hundred people gathered to witness the accident.
